

## NATIONAL FINE ARTS TITLE REGISTRATION

United States Registration of Original Works of Art

# If it is worth Framing, It's worth **Registering.**

Whether you, your mom or Monet created the art you own -- if it's worth framing, it's worth registering.

Museums, galleries, corporate offices and private collectors register ownership of their original art pieces with National Fine Arts Title Registry. Now, artists can quickly and easily register their works, too!

1. Create secure, off-site records for inventory and insurance purposes
2. Document authenticity (begin provenance) for future owners
3. Confirm details such as price with galleries showing your work
4. Ensure accurate sales information with ownership transfer
5. Enhance value with a national database registration
6. Print a Certificate of Registration
7. Print a Price Card displaying your asking price
